

# WE WANT YOU TO HAVE A SAFE 4TH OF JULY!

## SO REMEMBER...

### BE SAFE!

When lighting fireworks - Set family boundaries. Have a designated adult light all fireworks. Do not allow young children to light fireworks. Use eye protection, wear safety goggles. Light one at a time, move away quickly and keep at a safe distance until the display is finished. Use fireworks only outdoors and away from anything that can burn. To prevent injuries, never have any part of their body over a firework. Never throw fireworks and never hold fireworks in your hand.

Always read and follow the directions on the label. Never use fireworks indoors.

Light only one firework at a time—and never re-light a “dud” firework

Never shoot fireworks in metal or glass containers—and don't even think about carrying them in your pocket!

do not use fireworks near woods or any combustible material, use fireworks outdoors and in a safe area away from fields, grassy areas, and buildings

Use fireworks in parking lots, driveways, and gravel or dirt areas  
only use fireworks with adult supervision

follow the instructions provided

do not use under the influence of alcohol

have a rake or shovel as well as a bucket of water, wet towel, and a garden hose nearby.

monitor the area for several hours after using fireworks.

### BE PREPARED!

Purchase only legal fireworks available at approved stands. Never make your own fireworks, and be on the lookout for teens experimenting with home made fireworks

Know the laws for your area.

Keep a bucket of water nearby in which to place all used fireworks. Have a water hose or fire extinguisher nearby to put out stray sparks.

Clear a level area away from things that can burn.

### Be Responsible!

After you finish - Clean up all debris when finished. Duds can be dangerous; if a device does not light or fire, an adult should wait at least 15 minutes, approach it carefully, and place it in a bucket of water. Be sure all unused fireworks, matches and lighters are out of the sight and reach of children.

Dispose of fireworks properly. Soak them completely in water before putting them in the trash can.

From our family to yours,

**BIG BLAST**  
FIREWORKS
